

Retirement - Are YOU Financially Ready?

Many courses talk about planning early for retirement. But you may not had the opportunity to plan ahead or at all.

If you would like to get a glimpse of your potential financial position when you retire, this 4.5 hour course offers you a snapshot of your financial readiness to retire.

1. Take stock of your assets and liabilities;
2. Project your retirement income sources and expenses through a hands-on exercise;
3. Familiarise yourself with various government schemes that provide additional support in retirement and ageing.
